

XL-6305

“J-CLEAN”

NON-TOXIC INDUSTRIAL CLEANER

XL-6305 is a non-abrasive water-soluble cleaner that can be diluted with either hot or cold water to produce an extremely efficient and economical general purpose cleaner.

XL-6305 will not harm most metals, paints, or other finishes.

XL-6305 can be used to clean machinery, tools, parts, vinyl, rubber, plastics, wood, etc.

XL-6305 can even be used to clean glass, when diluted at a ratio of 250:1

| TYPICAL SPECIFICATIONS | |
|-------------------------------|---------------------|
| Product Code: XL-6305 | /000 |
| Dilution | Rapid |
| pH (diluted 1:10) | 11.8 |
| Wetting Properties | Excellent |
| Foaming | Abundant |
| Biodegradability | Yes (diluted 100:1) |
| Odour | Mild/pine |
| Color | Clear or green |
| Specific Gravity (g/ml) | 1.05 |

| DILUTION RATIOS: | XL-6305 | WATER |
|-------------------------------------|----------------|--------------|
| <i>Machinery</i> | 1 | 10-40 |
| <i>Boats, Ships</i> | 1 | 15-25 |
| <i>Tools</i> | 1 | 15-25 |
| <i>General Building Maintenance</i> | 1 | 25-50 |
| <i>Parts</i> | 1 | 25-50 |
| <i>White Wall tires</i> | 1 | 50-60 |
| <i>Vinyl</i> | 1 | 60-80 |
| <i>Plastics</i> | 1 | 80-100 |
| <i>Glass</i> | 1 | 200-250 |

Steam Cleaning: Mixing tank sizes vary with the type of cleaning equipment. In order to determine the correct amount, check the operation manual and use between 1/3 and 2/3 of the total amount.

Cleaning machinery: Use the recommended concentration and apply directly to the surface to be cleaned, then wipe off.
