

XL-7385

SYNTHETIC HYDRAULIC FLUID FOR TRANSMISSION AND POWER-STEERING SYSTEMS

XL-7385 is a fully formulated synthetic hydraulic fluid formulated to provide outstanding performance in power steering units, and specific transmissions demanding this type of fluid.

XL-7385 features:

- Superior lubrication of pumps, valves, cylinders, etc
- Excellent low temperature flow
- High pressures at high temperatures
- Rust and corrosion prevention
- High resistance to deposit and sludge formation
- Seal and gasket compatibility

TYPICAL SPECIFICATIONS	
Product Code: XL-7385	/032
Viscosity (cSt @ 40°C) (ASTM D-445)	34.7
Viscosity (cSt @ 100°C) (ASTM D-445)	7.0
Viscosity Index	168
Elements	
% Zinc	0.009
% Phosphorous	0.032
% Boron	0.012
% Silicone	0.0007
